About us

Pillai College of Engineering

Pillai College of Engineering (PCE) is a prestigious engineering institution located in Navi Mumbai, India. Established in 1999, PCE has quickly risen to become one of the top engineering colleges in the country, earning an A+ grade from the National Assessment and Accreditation Council (NAAC). PCE is recognized by the Government of Maharashtra and the All India Council for Technical Education (AICTE), and is affiliated with the University of Mumbai. The college offers a wide range of undergraduate, postgraduate, and doctoral programs in various engineering disciplines, including computer science, electronics, mechanical, and more. PCE is known for its excellent academic standards, experienced faculty, state-of-the-art infrastructure, and strong industry connections. The college provides a dynamic learning environment that fosters creativity, innovation, and academic excellence. PCE graduates are highly sought after by top companies across India and around the world.

CTFC 2025

Cities in developing countries are rapidly expanding, and it is expected that about 65% of the world population would be living in cities by 2050. Unfortunately, the expansion is unplanned and disorganized which leads to inequitable distribution of public services, unaffordable housing, lack of sufficient streets and roads and insufficient open spaces. Scientists and engineers, world over, are looking for technological solutions to the problems, such as, unorganized traffic, unenforced traffic rules, poor quality public transport and parking facilities, deficiencies in water supply, air and water pollution, etc.
